

Amerigroup expands specialty pharmacy precertification list

Background: Effective for dates of service on and after April 1, 2021, the specialty Medicare Part B drugs listed in the table below will be included in our precertification review process.

Federal and state law, state contract language, and CMS guidelines (including definitions and specific contract provisions/exclusions) take precedence over these precertification rules and must be considered first when determining coverage. Noncompliance with new requirements may result in denied claims.

| HCPCS or CPT® code | Medicare Part B drugs |
