

Revision to evaluation and management services — over-coded services postponed

Amerigroup District of Columbia, Inc. previously communicated that as of October 27, 2019, we would assess selected claims for evaluation and management (E&M) services using an automated analytic solution to ensure payments are aligned with national industry coding standards. The target effective date has been delayed.

Amerigroup will send out a follow-up article to inform providers of the revised effective date and any additional details for the changes made. The update that was posted here entitled *Evaluation and management services — over-coded services* has been removed.

If you have questions about this communication or need assistance with any other item, contact your local Provider Relations representative or call Provider Services at 1-800-454-3730.
