

Prepayment clinical validation review process

Summary of change: Effective with dates of service on or after September 5, 2019, Amerigroup will update our audit process for claims with modifiers used to bypass claim edits. Modifier reviews will be conducted through a prepayment clinical validation review process. Claims with modifiers such as -25, -59, -57, LT/RT and other anatomical modifiers will be part of this review process.

In accordance with published reimbursement policies that document proper usage and submission of modifiers, the clinical validation review process will evaluate the proper use of these modifiers in conjunction with the edits they are bypassing (such as NCCI). Clinical analysts who are registered nurses and certified coders will review claims pended for validation, along with any related services, to determine whether it is appropriate for the modifier to bypass the edit.

If you believe a claim denial should be reviewed, please follow the applicable provider appeal process (outlined with the denial notification) and include medical records that support the usage of the modifier applied when submitting your appeal.

What if I need assistance?

If you have questions about this communication or need assistance with any other item, contact your local Provider Relations representative or call Provider Services at the toll-free phone numbers listed below:

- Medicaid providers call 1-800-454-3730.
- Medicare providers call 1-866-805-4589.
- STAR+PLUS MMP providers call 1-855-878-1785.
