Training Opportunities: Centralized Training Infrastructure for Evidence Based Practices

Workshop	Training Details	Description
<p>Nurturing Parenting Program (NPP) Facilitation Training</p>	<p>March 4-6, 2020 9:00am - 4:00pm</p> <p>Trainer: Sonya M. Thorn, LCSW</p> <p>Location: Lena Pope Amon Carter Center 3200 Sanguinet Fort Worth, Texas 76107</p> <p>Fee: Varies by Agency</p>	<p>There are no pre-requisites for attendance at this workshop. This training targets direct service staff and is <i>not intended</i> to follow a train the trainer model.</p> <p>The three-day training focuses on understanding the philosophy of nurturing parenting, assessing high risk parenting beliefs and environments, creating competency-based parenting lessons and programs tailored to meet the individual parenting needs of families, and implementing programs at the primary, secondary, and tertiary levels of prevention. Participants will also learn how to monitor the success of families through on-going process evaluation strategies designed to measure the attainment of parenting knowledge and skills.</p> <p>Participants will experience hands on approach to implementing home based, group based and a combination home-based and group-based program models; learn how to administer and score the online version of the Adult-Adolescent Parenting Inventory (AAPI-2) and how to select the best Nurturing Program model for your agency.</p>

Workshop	Training Details	Description
<p>Social Skills Training and Aggression Replacement Techniques (START)</p>	<p>March 10-11, 2020 9:00am - 4:30pm Trainer: Sheldon Braaten, PhD Location: San Antonio Fire Department Training Academy Training Room 146 300 S Callaghan Rd San Antonio, TX 78228 Fee: Varies by Agency</p>	<p>This two-day training will examine the scope of youth aggression in schools, homes, the community and institutions.</p> <p>It will provide participants with background and rationale for teaching pro-social skills. The format includes lecture, demonstration, participation and implementation planning.</p> <p>There are no prerequisites for participation in this training.</p>

Workshop	Training Details	Description
Cognitive Behavioral Therapy for Psychosis (CBTp)	<p>March 30 – April 1, 2020 9:00am – 4:30pm</p> <p>Trainer: Sally E. Riggs, DClInPsy, ACT</p> <p>Location: StarCare Lubbock 517 N. Zenith Lubbock, TX 79403</p> <p>Fee: Varies by Agency</p>	<p>Cognitive Behavior Therapy for Psychosis (CBTp) is based on the original CBT assertion of, how you think leads to changes in how you feel and what you do. However, CBTp focus adds to this understanding by helping to reduce the distress caused by positive symptoms, including hallucinations and unusual thoughts/delusions.</p> <p>In CBTp training, clinicians learn how to help clients interpret the event that causes distress rather than the event itself, then check the accuracy of the interpretation. CBTp also teaches to investigate how current behaviors may be maintaining the problem, and to check the helpfulness of those behaviors.</p> <p>CBTp also targets: Symptoms of depression and anxiety, Past traumatic events, Social skills, Negative symptoms including lack of motivation, Problem solving and decision making, Developing coping skills and Relapse prevention planning. The research evidence base will also be reviewed during this training.</p> <p>Registrants must hold a minimum of a master's degree to attend this training.</p>
