

# Epocrates

The power for enhanced prescribing in the palm of your hand

We'd like to introduce you to the Epocrates Rx® clinical reference that combines detailed drug information from Epocrates with the Amerigroup formulary. It is available to you free of charge.

With this powerful database downloaded to your handheld device, you can check:

- Prior authorization requirements
- Copayment tiers
- Formulary alternatives and generic substitutes
- Quantity limits
- Coverage for Medicare Part D Plans

You may already be using Epocrates Rx, the leading handheld drug reference guide used by more than 500,000 health care professionals to:

- Determine adult and pediatric dosing
- Check for drug interactions
- Guard against adverse reactions and contraindications
- Check drug tables and regimens

When you use Epocrates Rx for prescribing, the advantages include:

- Safer, more cost-effective prescribing
- Less time spent handling pharmacy call backs
- Better patient satisfaction
- Less of your staff's time spent handling pharmacy benefit paperwork

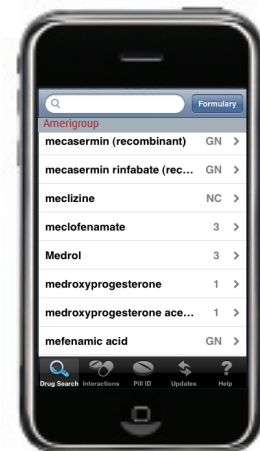

All you need is a handheld device or a personal computer with access to the Internet.

We value our relationship with you and all the physicians in our network, and appreciate the care and service you give our members. Providing you with this innovative tool is one way we're striving to better serve you.
