

Provider Blast Fax

Transition in care is the most critical component in ensuring our members make a smooth and safe transition from the hospital to the place they call home. It is crucial that the member's provider and care coordinator have the member's discharge record within 24 hours of the member's discharge. The core clinical benefit of this health exchange is to enable the transfer of key information following an acute health event so that appropriately informed follow-up care can take place.

Please do your part

Ensure the member's discharge record is sent to their healthcare provider within 24 hours of the member's discharge.

Benefits of sending the discharge records:

- Decreased hospital readmissions
- Accurate medication management
- Improved care coordination
- Reduction in preventable errors
- Decreased adverse events after discharge
