

Clinical Utilization Management Guidelines

Attached is a list of the *Clinical Utilization Management (UM) Guidelines* Amerigroup Community Care has adopted.

The full list of *Medical Policies* and *Clinical Utilization Management (UM) Guidelines* are publicly available on the ***Medical Policy and Clinical UM Guideline subsidiary website***. Their purpose is to help you provide quality care by reducing inappropriate use of medical resources.

InterQual[®] Criteria is used for:

- Medical necessity review for medical and behavioral health inpatient review.
- Inpatient site of service appropriateness.
- Inpatient rehabilitation and skilled nursing facility review.
- Home health and outpatient rehabilitation.
- Procedures.

Medicaid state contracts, regulatory guidance, CMS requirements and our *Medical Policy/Clinical UM Guidelines* supersede InterQual Criteria.

Note: We make determinations of medical necessity on a case-by-case basis in accordance with the definition of medical necessity that is contained within the Medicaid state contract, regulatory guidance, CMS requirements or in our *Medical Necessity Criteria Policy ADMIN.00004*.

If the request doesn't meet established criteria guidelines, it will be referred to a licensed physician reviewer with the appropriate clinical expertise to make a decision.

Clinical Utilization Management Guidelines

The *Clinical Utilization Management Guidelines (CUMG)* indicated as *new* below were adopted by the Medical Operations Committee for Amerigroup Community Care members on March 28, 2024.

To view a guideline, visit [Search Medical Policies and Clinical Guidelines | Georgia Provider - Amerigroup](#).
