

OBAT training offering

Camden Coalition* is offering free virtual training webinars for office-based addiction treatment (OBAT) navigators. The four-session training series provides actionable information for OBAT navigators on how to support patients' goals and priorities, as well as best practices in connecting patients to behavioral health and social service resources. Providers will learn the following techniques:

- Identify the needs (and the strengths) of their medication-assisted treatment patients.
- Make patient-centered referrals.
- Connect with resources in the community.
- Support a patient-driven care plan.

You can enroll for these trainings with Camden Coalition at the following link:
bit.ly/OBATEvents.

All medication-assisted treatment providers and care navigators are welcome to attend. For more information, contact Mouy Pan at mpan@camdenhealth.org.

Attention DATA 2000 waiver providers: If Amerigroup Community Care is not presently listing your practice in our online provider directory as a medication-assisted treatment provider with or without navigation services, contact your Network Management representative or email us at nj1prmb@amerigroup.com for assistance.

If you have questions about this communication or need assistance with any other item, contact your assigned Provider Experience associate or call Provider Services at **800-454-3730**.

* Camden Coalition is an independent company providing training and support for office-based addiction treatment navigators on behalf of Amerigroup Community Care.
