

Clinical Utilization Management Guidelines

Attached is a list of the *Clinical UM Guidelines* the health plan has adopted.

The full list of *Medical Policies* and *Clinical Utilization Management (UM) Guidelines* are publicly available on the [Medical Policy and Clinical UM Guideline subsidiary website](#). Their purpose is to help you provide quality care by reducing inappropriate use of medical resources.

InterQual® Criteria or MCG care guidelines are used for:

- Medical necessity review for medical and behavioral health inpatient review.
- Inpatient site of service appropriateness.
- Inpatient rehabilitation and skilled nursing facility review.
- Outpatient based service or procedure where there is not an established medical policy or clinical UM guideline.

In addition, American Society of Addiction Medicine® criteria is used for substance use services according to state requirements.

Medicaid state contracts, regulatory guidance, CMS requirements and our *Medical Policy/Clinical UM Guidelines* supersede MCG care guidelines and InterQual Criteria.

Note: We make determinations of medical necessity on a case-by-case basis in accordance with the definition of medical necessity that is contained within the Medicaid state contract, regulatory guidance, CMS requirements or in our *Medical Necessity Criteria Policy ADMIN.0004*.

If the request doesn't meet established criteria guidelines, it will be referred to a licensed physician reviewer with the appropriate clinical expertise to make a decision.

Clinical Utilization Management Guidelines

The new *Clinical Utilization Management (UM) Guidelines* below were adopted by the medical operations committee for Amerigroup members on March 10, 2020. These guidelines take effect June 22, 2020. Note, not all of the services and codes referenced within these guidelines are reimbursed under Medicaid or CHIP. Please refer to Medicaid/CHIP guidelines for coverage and reimbursement information.
