- Templates allow you to enter clinical details previously provided via phone.
- Update cases or request an extension within the ICR tool.

ICR details

The ICR brings improved efficiency to the authorization process:

Interactive Care Reviewer Terms of Use and Disclaimers

Together with IBM we have developed this online system using IBM's Watson technology to allow providers to request utilization management determinations, to assist in assembling required information, and to view an advance determination with information regarding review of coverage for a requested service.

All treatment decisions, and the consequences and outcomes thereof, are the responsibility of the health care provider and the patient, not the Plan. In general:

- Plan deductibles and co-payments apply before final payment can be made.
- Plan maximums and limitations will apply before payment can be made.
- Plan benefits may change upon renewal.

Health care providers will continue to receive a formal written notice of the Plan determinations, which will include specific additional information regarding the administration of benefits for the requested service.

The data provided by this system is protected health information ("PHI") and must be treated with the same care as other PHI that is exchanged during the normal course of business. PHI shall only be used as necessary for patients currently receiving treatment. Health care providers using this system must ensure that use of PHI is subject to the provider's own policies and procedures, in compliance with applicable law. Such use shall further be subject to the terms and conditions of the Provider's agreement with the Plan.

Sensitive medical services may include, but are not limited to, treatment for: substance use disorders, sexually transmitted illnesses or mental conditions. Such information may only be accessed, used, or disclosed with the authorization of the patient or for treatment purposes. Accessing sensitive service information outside of these requirements is prohibited.

Check Case Status

Check Case Status allows for the ability to view any cases submitted associated with the tax ID(s) on the request. This includes submissions by phone, fax, etc.

Note: In order to view the authorization/referral, the case must be associated with the tax ID listed under the organization you selected in the Availity Portal.

Creating a new request

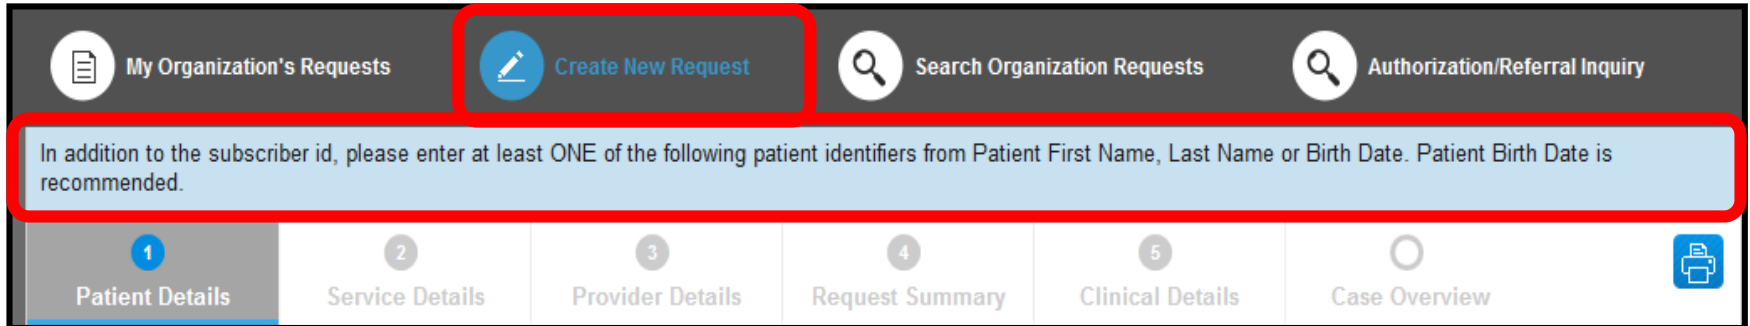

Creating a new request

Do you want to verify if an authorization is required? The ICR gives you quick access to that information in most cases. Enter:

- Patient information.
- Diagnosis and procedure information.
- Provider details.

A message will appear indicating whether or not an authorization is required for most requests. This information can be printed or saved to a PDF and is available later via an ICR search.

Starting a new request on the ICR

The screenshot shows the ICR dashboard interface. At the top, there is a navigation bar with four main sections: 'My Organization's Requests' (with a document icon), 'Create New Request' (with a pencil icon and highlighted by a red box), 'Search Organization Requests' (with a magnifying glass icon), and 'Authorization/Referral Inquiry' (with a magnifying glass icon). Below the navigation bar is a blue messaging bar, also highlighted by a red box, containing the text: 'In addition to the subscriber id, please enter at least ONE of the following patient identifiers from Patient First Name, Last Name or Birth Date. Patient Birth Date is recommended.' Below the messaging bar is a horizontal menu with six tabs: 'Patient Details' (with a blue circle containing the number 1), 'Service Details' (with a grey circle containing the number 2), 'Provider Details' (with a grey circle containing the number 3), 'Request Summary' (with a grey circle containing the number 4), 'Clinical Details' (with a grey circle containing the number 5), and 'Case Overview' (with a grey circle). A blue print icon is located on the right side of the menu.

- Select **Create New Request** from the ICR dashboard tab.
- Watch the blue bar for messaging. Errors turn the box red.
- Menu bar shows where you are.

A larger red rounded rectangle highlights the 'Request Type' and 'Case Type' dropdown menus. The 'Request Type' menu is open, showing options: 'Inpatient', 'Lab Only-Outpatient', 'Outpatient', and 'Referral'. - Clear your cache if there seems to be missing fields or if you continue to have errors.
- Remember — Admit date for inpatient requests cannot be changed once you submit.
